BEST SWIM AND SPA EXPERIENCE

World Leaders in Swim Spa Technology

HIGH FLOW & TARGETTED RESISTANCE

- Correct jet positioning is crucial - low or wide jets waste water flow
- Jets must hit the shoulders and body for maximum resistance
- Full flow swim jets are necessary to create enough flow to swim against
- Jets with restrictors in them (not full 50mm opening) will not work properly
- 1 pump per swim jet is necessary to make swim jets work
- Running 2 jets from one pump is useless as each jet requires minimum 600 litres a minute to work

SWIM POLE SWIM SYSTEM

- Great for kids and aerobic training
- Fantastic alternative swimming system

EXERCISE HANDRAIL

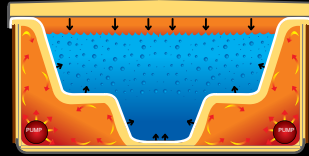

- For leg exercises and learning to swim

POWER SAVER TECHNOLOGY

Save more than \$3,000 over the life of your spa

POWER SAVER INSULATION SYSTEM

- Multiple layers of insulation on the sides and base of the spa stops heat loss from the cabinet
- 1 inch thick foam on the shell (3 x most spas)
- High density cover stops heat loss from above
- "No gap" cabinet keeps heat in and cold air out

POWER SAVER CONTROLLER

- Heat pump compatible - just "click and connect" and save 75%
- Got a smart meter? You can use off-peak power and save 30%
- Save even more with Eco Mode and other Power Saver Technologies

HEAT PUMP / GAS HEATER READY

- The plumbing, pump and technology is in place

POWER SAVER FILTER PUMP

- Only needs to run 4 hours a day
- Quiet and reliable

PREMIUM QUALITY

The Strongest Spas on the Market

THE THICKEST SHELL ON THE MARKET

- 8-10mm thick, 6 layer laminated construction for maximum strength

PREMIUM BEARINGLESS JETS

- No bearings to fail
- No locking clips to break
- PVC and stainless steel construction for long life

SUPER TOUGH CONSTRUCTION

- Super strong galvanised steel frame
- Designed to support the base, sides and spa seats

WRAP-AROUND BASE

- Wrap around ABS base seals the spa to keep out cold air, weather and pests

PREMIUM COMPONENTS

- Massive 3 Kw or 6 Kw variable output teflon coated heater
- American "Lucite" acrylic
- Quality fittings throughout

EASY CARE TECHNOLOGY

Spa Care Made Easy

EASY CARE CD OZONE & BOOST CHAMBER

- Kills germs and breaks down body oils for crystal clear water and reduced chemical use

EASY CARE JETS

- Easy to remove - just screw them in and out
- Self cleaning - never stop spinning

EASY CARE TECHNOLOGY

- Handy clean up cycles
- Self cleaning heater element
- Control your spa from anywhere with our Wi-Fi option and SpaNet 'SV Link' App

EASY CARE CABINET

- Made from UV protected synthetic timber.
- No sanding or oiling required
- Just spray the cabinet with a hose if it gets dirty

EASY CARE FILTRATION

- Huge 4 cartridge filtration system maximises filtration and water clarity
- Our larger filter system also means less frequent filter cleaning
